

DAUGHTER TO GET REPORT ON STRIKE

Advices Received at Department Tell of Interference With Mails.

Advices received by the Department of Justice concerning disorders at various railroad centers in the middle west resulting in interference with the mails caused Acting Attorney General Guy D. Goff to begin preparation yesterday of a report on the situation to be laid before Attorney General Daugherty.

Several messages on the general situation have been received by the department, it was said, and the matter of action by United States marshals wherever the need arises was discussed by Mr. Goff and his aides. Officials said that for the present, however, there was nothing the Department of Justice could announce concerning its plans.

Washington Trains Still Run.
The railroad strike situation has not necessitated the cancellation of any trains out of Washington, officials in charge at Union station stated last night. On the contrary, a number of extra excursion trains were operated out of the District yesterday, it was said.

Local officials said they had seen the dispatches telling of the abandonment of some service in western states, but they declared no such action has been necessary here.

William H. Johnston, president of the International Association of Machinists, one of the organizations having members on strike, expressed the belief yesterday that much of the violence and interference with the operation of the railway systems of the country, which has been charged against striking shopmen, was in reality the work of paid emissaries of the various railroad systems.

JUSTICE TAFT SAILS; GIVEN BRIDAL SUITE

Trip to England "Most Delightful Episode," He Declares, Before Departure.

LIVERPOOL, July 8.—Chief Justice Taft and Mrs. Taft sailed for the United Kingdom today on the Canopic. They occupied the bridal suite, which was elaborately decorated with flowers.

Mr. Taft told interviewers that his visit to London was "one of the most delightful episodes of my life."

He said that it was somewhat difficult to say how much of value will result from his investigation of English judicial procedure.

"It is solely a question of application in different conditions," he continued.

The lord mayor and mayors of Liverpool and several aldermen and post office officials were among the group which gathered on the pier to bid the chief justice and his wife farewell.

Jury, Out 345 Hours, Acquits Undertaker Of Murdering Wife

PITTSBURGH, July 8.—James J. Flannery, prominent Pittsburgh undertaker, who was tried for killing his wife, was today acquitted.

The jury had the case under consideration for 345 hours, a record in Allegheny county. Flannery said he shot and killed his wife in mistake for a burglar. The state tried to show that domestic troubles caused the crime.

Wide-spread attention was attracted by the case because of its prominence in the underworld. Flannery comes from one of the best known and wealthiest families in Pittsburgh.

NEW MEXICAN REVOLT STARTS TROOPS MOVING

Modesto Garcia, Once Carranza Captain, Leads Rebellion. Reds' Disorder Ended.

VERA CRUZ, July 8.—A new rebellion, headed by Modesto Garcia, who was a captain in the Carranza army, is reported here, and a detachment of federal soldiers has left Paso del Macho to engage the rebels.

Complete order has been restored by the military authorities, following the recent sanguinary clashes between the authorities and rival factions of the red union of revolutionary tenants. Troops are patrolling the streets, martial law being in effect.

U. S. Orders Force In Rail Strike; Illinois Troops Out After Clash

(Continued from First Page.)

and sympathizers were collected near the shops. Sheriff J. W. Parsons sent a non-union inspector in the Parsons car at Rockford, which resulted in troops being ordered here.

The railroad guards who fired the shots were arrested by Sheriff Parsons, who drove him out of the yards.

All men working at the Clinton shops have deserted their jobs and are participating in the strike. The Clinton shops employed about 500 men before the strike, and 400 of these walked out July 1. No strike-breakers were imported by the road, and those who remained at work only a few came in to augment their forces. Between seventy and eighty federal guards were stationed about the shops.

Troops Out in Thirty Minutes.

SPRINGFIELD, Ill., July 8.—Troops under command of Maj. John O. Smith of Springfield, moved on their way to the scene of rail strike disorders at Clinton within thirty minutes after the order was issued by Adj. Gen. Black, it was announced here by Col. Frank L. Taylor of the general staff.

Regimental Headquarters Company of the 130th Infantry, now at Decatur, has been ordered to proceed immediately to Clinton in response to rumors of further trouble at the strike scene there, Adj. Gen. Black announced.

Stories of how the trouble started vary. The strikers claim the guards started it and the guards claim the strikers were the first to attack.

After the shooting, strikers and sympathizers started for the city for guns. Words preceded the attack and by the time they reached the business section, two of the three hardware stores in town had been looted and their stock, and inside the third were police and deputy sheriffs. Their attempts to keep the men out were futile, and the men, it is said, took every gun and cartridge in the store and started for the railroad yards.

Postmaster Cline arrived just as the men were leaving, talked with them and asked them to stop and think before they commit murder or shed unnecessary blood. The men listened and returned all arms and ammunition they had taken.

The strikers returned to the railroad yards, but later came back to town and gathered in groups about the street corners waiting the arrival of troops.

CHASED INTO CHURCH. Railroad Worker Beaten for Refusing to Go on Strike.

BIRMINGHAM, Ala., July 8.—The first real strike disorders were recorded here today when a railroad worker was chased into a church and beaten for refusing to go on strike.

Postmaster Cline arrived just as the men were leaving, talked with them and asked them to stop and think before they commit murder or shed unnecessary blood. The men listened and returned all arms and ammunition they had taken.

The strikers returned to the railroad yards, but later came back to town and gathered in groups about the street corners waiting the arrival of troops.

OFFICIAL HELD FOR SHOOTING

Southern Railway Superintendent Out Under \$600 Bond.

ATLANTA, July 8.—W. W. Watts, superintendent of terminals for the Southern railway here, was arrested today charged with shooting at one striking shopman and pointing a pistol at another. He was released in \$600 bond.

Watts claimed he fired only after one of the men had thrown an axe at him and that he had the other man on the ground when he refused to stop at the demand of strike sympathizers. No one was struck by the shots. He was leaving the yards at the time in the car, he said.

Strike sympathizers asserted Watts had almost run down a group of them, but railroad officials denied this.

BREAK BREAD TOGETHER.

Incoming Workers Refuse Jobs After Luncheon by Strikers.

DES MOINES, Iowa, July 8.—Striking shopmen here met twenty-five incoming workers at the train today, took them to a luncheon and reached an agreement by which the men refused to go to work.

ERIE CANCELS 20 TRAINS.

Coal Shortage Blamed for Cutting Commuting Service.

NEW YORK, July 8.—The Erie railroad today posted notices to the effect that it was cancelling 20 trains, chiefly on lines commencing at New York, would be withdrawn from service Monday until further notice on account of the coal shortage.

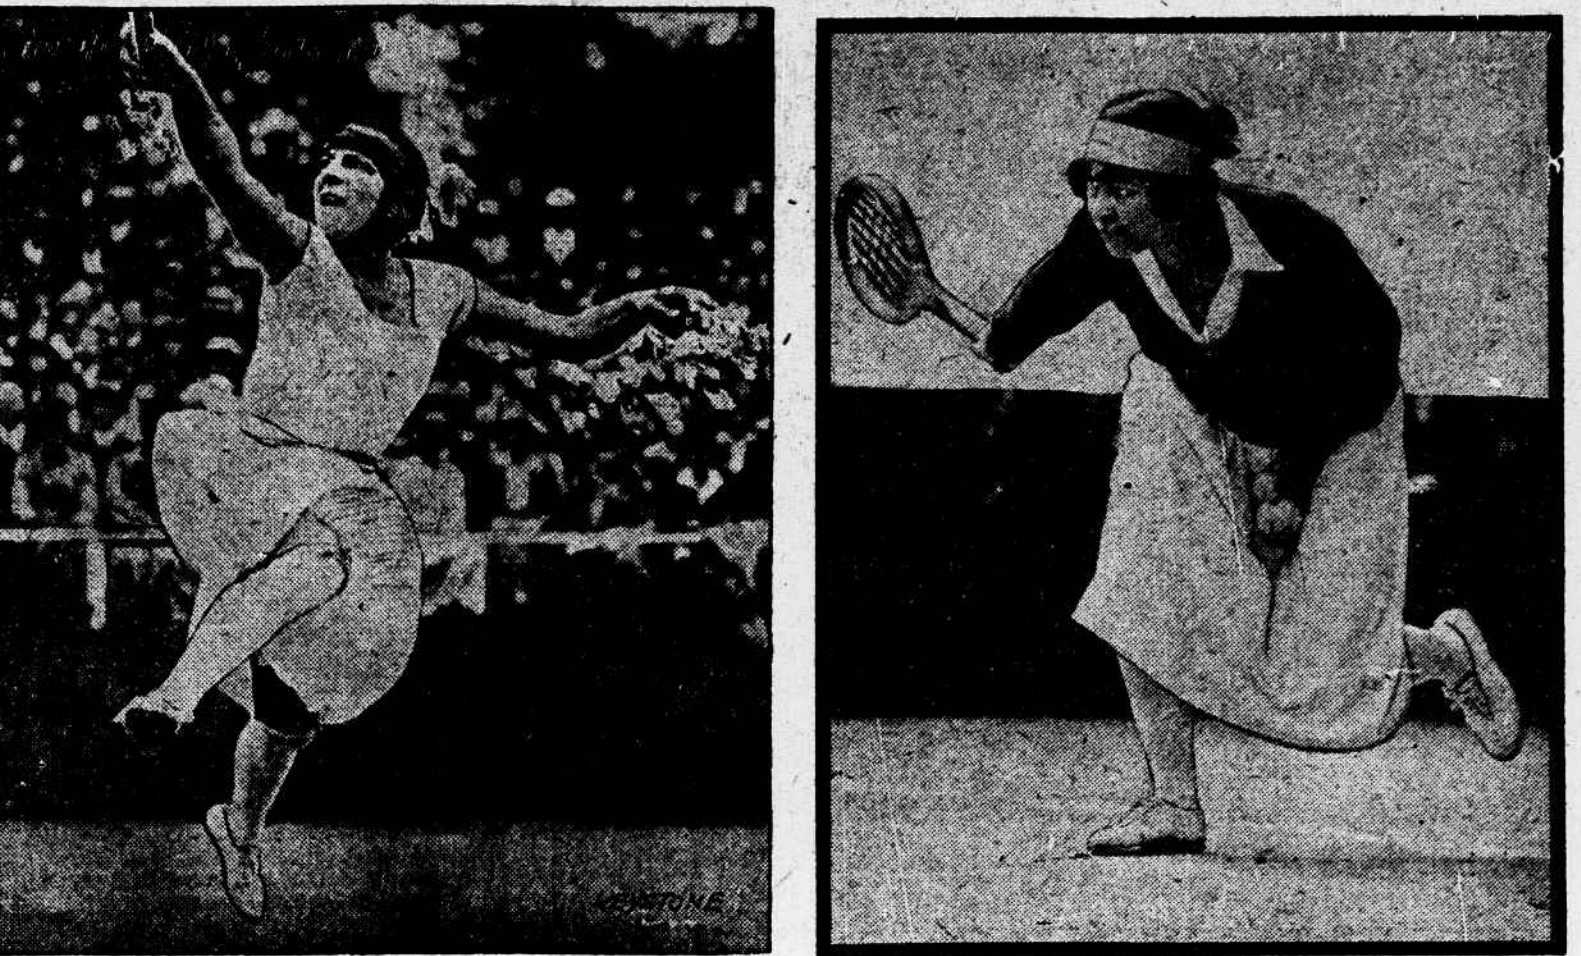

The notices were posted in the Jersey City terminal and in the New York ferry houses.

Although the notices made no reference to the railroad shop strike, union men tonight said they were confident the strike had a direct influence on the Erie in cancelling the trains.

The rail shop crafts strike in the New York district today continued, with the exception, to be largely a battle of statistics, with the unions claiming figures of more than 600 men and road officials declaring their working forces were steadily being pushed toward normal by the return of strikers and the employment of new men.

An instance of violence was reported at Newark, N. J., where four striking shopmen were arrested on charges of assault preferred by a non-union inspector in the Parsons car at Rockford, which resulted in troops being ordered here.

VICTOR AND VANQUISHED IN INTERNATIONAL TENNIS MATCH.

Mlle. Suzanne Lenglen, World champion, who retained her laurels in decisive fashion. Mrs. Molla Bjurestedt Mallory, United States title holder, who failed in her greatest ambition.

WOMEN STRUGGLE THREE YEARS FOR WORLD TENNIS CHAMPIONSHIP

The battle at Wimbledon yesterday for the women's tennis championship of the world, which ended in victory for Mlle. Suzanne Lenglen, over Mrs. Molla Bjurestedt Mallory, is the culmination of a three-year struggle for premier tennis honors between these two players, which in recent months developed into the keenest and most personal contest ever witnessed in the history of women's sport competition.

No amateur sport honor was ever more eagerly sought or bitterly contested for, and additional interest and atmosphere were added to the struggle as a result of the unusual and dramatic climax to the meeting of these two players in the American championships last year, when Mlle. Lenglen defeated Mrs. Mallory because of illness after being defeated in the first set of the match 6-2.

Seeks World Title.

Mrs. Mallory's quest for the world's championship dates back to 1929, when she defeated Mrs. Molla Bjurestedt Mallory, a first American champion in 1915 and repeated in 1916-17-18, playing with an averted face in 1918, she was eliminated by Marion Zinderstein, but as Mrs. Mallory she returned to championship honors in 1920 and 1921. Mlle. Lenglen, who had been title holder from 1919 to 1921, was considered the greatest exponent of the game.

Mrs. Mallory, eager to test her game against that of Mlle. Lenglen, entered the Wimbledon tournament of 1920, but found that other entrants aside from the Frenchwomen could play high-class tennis, and she was eliminated by Mrs. Molla Bjurestedt Mallory, 6-0, 6-3. In 1921 Mrs. Mallory made another attempt, only to be defeated

by Miss Elizabeth Ryan, former California player, in the seventh round; Miss Ryan later losing to Mlle. Lenglen, 6-2, in the challenge round. From Wimbledon Mrs. Mallory went to St. Cloud, Paris, for the world's hard court championship and there met Mlle. Lenglen in the final round, only to be defeated in straight sets, 6-2, 6-3.

Smarting under the defeat and the personalities which developed, Mrs. Mallory returned to America and practiced strenuously for the national championships scheduled at Forest Hills in August in which the famous French player was to be a competitor. The pair came together in the second round.

Rivals Again Clash.

Mlle. Lenglen started to play with excellent control of the ball and her placements were fully up to the reputation which had preceded her to America. Mrs. Mallory, however, was handicapped by a severe cold, which she had contracted at the Forest Hills tournament. She became short of breath and began to cough, the aftermath of a bronchial cold contracted before she sailed for America. The first set went to the American champion at 6-2. In the opening game of the second set, Mrs. Mallory, after which Mlle. Lenglen made a double fault, and dropping her racket, collapsed on the side lines, coughing incessantly. She notified the referee that she was unable to continue and defaulted the match. Mrs. Mallory continued to the final round, in which she defeated Miss Molla Bjurestedt Mallory, 6-0, 6-3. In 1921 Mrs. Mallory made another attempt, only to be defeated

There was no attempt on the part of the spectators to shower personal congratulations on the winner. Among the first to greet her after she quit the course was Pat O'Hara Wood, her partner in the first three doubles. Umpire Hilliard of the Wimbledon Club shook hands with both players.

The victory of Gerald L. Patterson, the Australian star, over J. O. Anderson, was a praiseworthy comeback in the face of an almost wholly Anderson gallery, and after Patterson had won a set, and they were 2-1 in the third. In the first set Patterson was unable to intercept many of the swift services, and Patterson also used effectively a chop stroke with low bound to his opponent's back hand. Finally the set closed 6-1 in Patterson's favor.

In the second set Patterson defaulted several times and dropped two service games. Anderson then improved, becoming much steadier on the ground. Patterson netted a lot of cut shots, and Anderson won out on the ninth game.

The third set, to sixteen games, Anderson again proving the victor. But from that on Patterson, with his whirling and terrific volleys, overwhelming his opponent, and finished the match an easy victory.

MASSACHUSETTS PARK

This territory of forest-crowned hills, containing seven million feet of land, with six miles of improved streets, is not a suburb, but a city site with true country surroundings; it is within a two-mile radius of the White House and less than half a mile from Sheridan Circle. Hundreds of feet above the Potomac, it adjoins Rock Creek Park and includes what remains of that area known as "The Triangle of Increasing Values."

between Connecticut and Massachusetts avenues, Rock Creek Park and Cathedral avenue. No other property in Washington can now or ever compare with this in natural beauty.

Massachusetts Park is unquestionably Washington's finest remaining residential section, and those who today purchase finished homes or wooded lots and villa sites for no more than suburban homes and property miles farther out are fortunate indeed. Call for booklet.

SENATE BILL TAKES WHOLE FORD OFFER

Ladd Says Muscle Shoals Measure Has Support of Committee Members.

By the Associated Press.

Unconditional acceptance of Henry Ford's offer for purchase and lease of the Muscle Shoals projects, including the government's interests in the steam power plants at Gorgas, would be provided under a bill introduced in the Senate yesterday by Senator Ladd, republican, North Dakota.

Senator Ladd said his measure had the approval of several members of the Senate agriculture committee, of which he is a member.
